Golden Bière de Garde Laperouse

BIERE DE GARDE is a style from Northern France, malty, complex, lean and very refreshing. Deep golden in color it exhibits flavours of malt, white stone fruit and spice. This is the kind of beer that would have been drunk in high quantities by the sailors of Laperouse from Kamchatka to Australia. The legend goes that the beer took them of course and therefore reached Botany Bay eight days after the first fleet.

Award

Best with: white fish with sauce, pan fried pork cutlets, bloomy rind cheese, Welsh rabbit. With Biere de garde most specialities from northern France will work!
